

CAREER OBJECTIVE

Full-stack developer experienced in front-end and back-end technologies, RESTful API development, and database design, with a strong focus on clean code and problem-solving.

EDUCATION

B.E, Computer Science & Engineering 2022 - 2025
PES Institute Of Technology & Management
CGPA: 7.50/10

Diploma, Mechanical Engineering 2019 - 2022
Sri Venkateshwara Polytechnic, Bannerghatta, Bangalore
Percentage: 76.00%

TRAININGS / CERTIFICATIONS

Full Stack Development
Aug 2025 - Present
Internshala, Virtual

- Front-end and back-end development with React, Node.js, Express.js, and MongoDB.
- Git & GitHub for version control and code management.
- Database management and REST API development.
- DSA in JavaScript and problem-solving practice.

PORTFOLIO

[Portfolio link ↗](#)
[GitHub link ↗](#)

PROJECTS

[ShoppYGlobe: An E-commerce Application ↗](#)
Dec 2025 - Jan 2026

- Developed a responsive e-commerce application with seamless client-side navigation.
- Implemented product browsing, product details, and shopping cart functionality.
- Managed global state and cart data to ensure consistent data flow across components.

React, React Router, Redux, JavaScript

[GameHub – Video Game Discovery Platform ↗](#)
Sep 2025 - Oct 2025

- Developed a responsive video game discovery platform with real-time data integration.
- Implemented search, filtering (genre, platform), and sorting to improve content discoverability.
- Managed global state and optimized API calls with caching for better performance.

React, Tailwind CSS, Redux, React Query, JavaScript, REST APIs (RAWG)

[ShoppYGlobe – E-commerce Backend ↗](#)
Jan 2026

- Developed RESTful APIs using Node.js and Express.js to handle product management and user-related operations.
- Designed and managed application data using MongoDB, ensuring efficient data storage and retrieval.
- Implemented JWT-based authentication to secure user access and protected routes.

Node.js Express.js MongoDB JavaScript

[YouTube Clone – Full Stack Web Application ↗](#)
Feb 2026 - Present

- Developed a full-stack video streaming platform with secure JWT-based authentication and authorization.
- Implemented channel and video CRUD operations, including upload, update, delete, and ownership-based access control.
- Added like/dislike and comment systems and optimized data fetching for videos and related channel information.

React, Redux, Node.js, Express.js, MongoDB, JWT, Cloudinary, Tailwind CSS

SKILLS

- HTML
- Git
- CSS

- JavaScript
- React
- Node.js

- Tailwind CSS
- Redux
- Express.js

- Data Structures
- MongoDB
- REST API
